Employee Home Safety Program
Personal Online Store 800 959-4053

For 23 years *Ready America* has been partnering with companies like yours, with key retailers and online outlets* to provide the best quality products at competitive prices. Never again will you have to search for a fully integrated company with the resources and expertise to provide everything you need for safety and preparedness.

WHY OFFER AN EMPLOYEE DISCOUNT PROGRAM?

Your employees are your most valuable asset. If you encourage your employees to live in a safe and prepared environment at home, they will be the first to get back to work should disaster strike. Your employees will appreciate your concern for their well being and for making products available at well below retail prices all year long! This is a free employee benefit and doesn't cost you a dime.

TOP 10 COMMON OCCURRENCES

We believe education is the key! With knowledge of the top 10 most common things that can go wrong in households before, during and after disasters, we begin to reveal simple measures to prepare that give families peace of mind. For example, unsecured top heavy furniture is most likely to topple in an earthquake, and here is the cross-over - a young child climbing furniture to reach a toy or change the TV station may be injured. One product, Furniture Straps, will solve two problems. This and more examples, are ways we can help your employees know they have done their best to be prepared.

HOW DOES IT WORK?

Call or e-mail and request to be activated for immediate employee discounts! We then customize a special online page just for your company which includes the 25% discount.

Option 1: Your employees shop online from home and we ship directly to them.

Option 2: Your employees can pick up items at the will-call table at your own Safety and Preparedness Event.

Option 3: You can assign a point person at the office to take group orders and submit to us with payment.
